name: Kinetic Stone Lamp

category: floor lamp

type: 202201

composition: carrara marble, brass

reference: The lamp is an effect of designer's search for new, unique design paths which resulted in an object qualified as conceptual design. The designer aimed to create an object that would surprise with its scale, unusual combo of materials and extraordinary usage. Even though it sheds light the design doesn't resemble anything defined as 'lamp'. It enables the user to perceive design and interior planning from new perspective. Designer decided to experiment with the object's scale, weight and movement and used them in unprecedented way. The result is a marble stone with a cut surface in which a brass ring is placed. When touched it turns out to be a cylinder that slides out of the stone. The cylinder has walls made from glass that casts warm light. When touched again the light turns off and the cylinder slides back in. Usage of the object is out of the

ordinary. The size and weight of the lamp may seem ungrounded. Being around it is a completely new, almost surrealistic experience.

The key collaborator of the project was Granity Skwara company that supported the designer in the choice of stone and its processing.

production: handcrafted

dimensions:

68 cm width x 86 cm depth x 71 cm height
27 in width x 34 in depth x 28 in height
(tolerance: 0,5cm / 0,2in)

weight: 572 kg / 1261 lb

voltage: 120V, 240V

lamping: 3 x E27, 60W, 50-60Hz

lumens: 2000 lm

color temperature: 2700 K

tightness class: IP 21

certificates: CE approved, RoHS

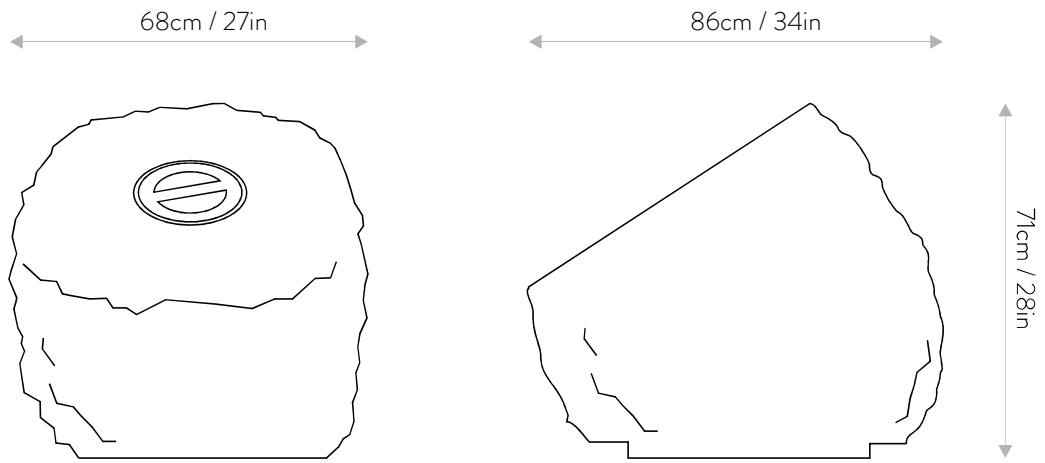

price: 21739 euro / 21440 usd

lead time: 10-15 weeks

payment terms: deposit 50 % upon order,
balance prior to shipping

customization: available

dimensions:

packing: europallet 80 cm width x 120 cm depth x 81 cm height, 600 kg
europallet 31.5 in width x 47 in depth x 32 cm height, 1322 lb
